

LRAP STATEMENT OF SUPPORT

“We (I), the undersigned, express our (my) commitment to law that serves the public interest. We join Indiana University School of Law - Indianapolis in urging the central Indiana community to demonstrate its commitment to law in the public interest by contributing to a loan repayment assistance program to aid students who enter jobs in the public interest or public sector. Doing so will help alleviate the combined pressures of huge educational debt and low public interest and public sector salaries as well as meet the pressing needs of the community.”
